

ANNAPOLIS BOAT SHOWS

Carpet and Display Material Removal

Regarding the use of carpeting on floating docks and tents floors, you must choose to do one of the following:

- A. Rent all floor coverings from our show decorator, Nash Events. They will be responsible for sourcing, installing, and removing all material. Nash Events is offering “early bird” special pricing. I have attached the price list.
- B. If you choose to bring in and install your own floor coverings from outside, you will be expected to remove all material, including staples, screws, and other fastening material. If these are left behind, we will remove and dispose of them and you will be billed for the removal service.
- C. Costs for Annapolis Boat Shows to remove carpet is \$150 per 100 square feet.. All material collected will be recycled if possible.
- D. We will communicate directly with the largest exhibitors to make specific arrangements for large scale removals. We appreciate the cooperation of all to keep our shows professionally presented and affordable for all.
